In-class or after school enrichment provides engaging tinkering activities for PreK-8. reDiscover brings selected tools and materials to provide a sequence of guided activities working in a variety of natural and manufactured materials. After school programs run for 8-12 weeks, to match your existing after school program. School day classes range from one-off workshops to full semester courses. reDiscover also operates classes and workshops at our fully stocked kids’ makerspace in Venice.

We provide:
- One-Time Workshops
- Semester Classes
- Special Programs (Field Trips and the like),
- Professional Development
This is our Tinkering Toolkit

TINKERING TOOLKIT IS THE PERFECT PLATFORM FOR CREATING FROM HOME, WHETHER YOU’RE MAKING A SCHOOL PROJECT THAT YOU NEED TO MAKE, REPAIRING YOUR BACKPACK, OR YOU’VE GOT SOME FABULOUS IDEAS THAT YOU WANT TO SHOW TO OTHERS IN 3D.
